

Brief of Work

A vintage colour tone is used to portray the small cramped living room of the grandmother. With only basic furniture in the flat, the fact that the speaker's grandmother still hosted family gathering by setting two mahjong tables side by side fully demonstrates her hospitality.

The tiny scissors with a heart background on the bottom left hand corner represents the passing down of the scissors from the grandmother to the granddaughter and the love between them. The scissors serve as an heirloom. The ritual glorifies the family heritage and legacy handed down to the granddaughter. The two illustrations surrounded with hearts on the top left depict the speaker's recollection of fond memories with her grandmother.

The pair of scissors was a reminder for the speaker that she will age too and should treasure the love from her grandmother. Yellow was also used to display the affectionate relationship between the grandmother and granddaughter.
