

Selected Value: Benevolence

Benevolence Beneath the Surface

In quiet depths, where sunlight gleams,
Gentle seals swim through light beams.
Their laughter rings, a happy sound,
Bubbles like hope, swirling around.

With every splash, warmth fills the space,
A dance with kindness, a sweet embrace.
Joy in their play, where hearts align
Benevolence flows, a feeling so fine

Beneath the surface, where friends come alive.
In the heart of the water, together they thrive.
