## Safe Sea Sanctuary

Great danger around, small, tiny fish bound  
to the unrelenting sea, where threats are found.  
But through the peril, a safe haven lies  
for the clownfish to escape its demise.

The sea anemone welcomes the red child.  
For her touch, so tender and mild.  
But only for the clownfish she provides help.  
To the other animals, she makes them leave with a yelp.

The clownfish in return lure prey for its mother.  
Meals soon rushed in for her tentacles to smother.

Together they form a sanctuary akin to a sturdy wall,  
Impenetrable even if enemies give their all.  
They survive in this wild, unforgiving ocean  
with courage and unity that works like a potion.
