

Diligence

Diligence of Translucence

A transparent creature in the deep sea
Every day they are very free
Floating in the ocean
There is no limitation

Many luminous dots

At night

Shining brightly

In the dark

They are the spotlight

The most colourful light

In the ocean

No rest

No sleep

No pause

Just floating

This is how they show

Diligence

And they are

Jellyfish

Swimming as a team

Exploring the unknown

Discovering

A whole new world

Together

Showing their curiosity

Letting their light guide them

To a new horizon
